

I CLAIM:

1           1. A travel food scissor comprising:  
2                 a pair of scissors having teeth serrations along at  
3           least one of the two opposing cutting edges thereof; and  
4                 a releasably openable closed carry case housing said  
5           scissors of a size to fit within a shirt or blouse pocket, a  
6           purse, handbag or pocketbook.

1           2. The travel food scissor of Claim 1, with serrations  
2           along both of said opposing cutting edges of said pair of  
3           scissors.

1           3. The travel food scissor of Claim 1, with said carry case  
2           being of a length not in excess of six inches.

1           4. The travel food scissor of Claim 1, with said carry case  
2           being of a width not in excess of four inches.

1           5. The travel food scissor of Claim 1, with said carry case  
2           being of a length not in excess of six inches and of a width not  
3           in excess of four inches.

1           6. The travel food scissor of Claim 1 wherein said carry  
2           case is closed at one end and includes a flip-open cover at an  
3           opposite end thereof.

1           7. The travel food scissor of Claim 6 wherein said closed  
2 end of said carry case is of a narrower width than at said  
3 opposite end.

1           8. The travel food scissor of Claim 7 wherein said opposite  
2 end of said carry case includes a pair of first wall surfaces  
3 upwardly extending from an underlying lid to respectively join  
4 with a pair of second wall surfaces downwardly extending from  
5 said flip-open cover.

1           9. The travel food scissor of Claim 7 wherein said opposite  
2 end of said carry case includes a pair of curved wall surfaces  
3 upwardly extending from an underlying lid to respectively join  
4 with a pair of straight wall surfaces downwardly extending from  
5 said flip-open cover.

1           10. The travel food scissor of Claim 8 wherein said  
2 underlying lid includes an end extension of a rear surface of  
3 said carry case and wherein said flip-open cover comprises an  
4 overlying end extension of a front surface of said case.

1           11. The travel food scissor of Claim 10 wherein said carry  
2 case is of a plastic composition.

1           12. The travel food scissor of Claim 10 wherein said pair  
2 of scissors is of a stainless steel composition.

1           13. The travel food scissor of Claim 10 wherein said flip-  
2 open cover is hinged to said front surface of said carry case.

1           14. The travel food scissor of Claim 10 wherein said carry  
2 case is of a length, width and depth not to exceed six inches,  
3 four inches and one inch respectively.
